

# Index to THE CLASSICAL WEEKLY, Volume XXI

This Index, prepared by Charles Knapp, has been worked out exactly along the lines followed in the General Index to Volumes I-XVI, and in the separate Indexes to Volumes XVII-XX. By the use of space-saving devices much more material is presented in the same number of pages.

The name of an author and the title of an article are given in full only once, at the place where the author's surname appears in the alphabetical sequence. The title of a book reviewed will be found in full only where the name of the author appears in the list given under the caption "Reviews". To the titles of articles or subjects (e. g. "Adversative Conjunction Repeated") the names of the authors are not attached; the names can readily be found by looking up the page or pages named.

"Acropolis of Athens: Reviews, Schede" = 'See Reviews, under the name Schede'; "Aeneas, Aeneid: Vergil" = 'For Aeneas, and the Aeneid see under Vergil'; "see above", "see below" = 'see above', 'see below', under the same caption.
